Good afternoon sir..

I had a question related to other companies offering summer internship.

Are these 4 students selected on the basis of their CPI?

Will the other companies also not take any interviews and just select the students on the basis of CPI only???

Yours Sincerely

Dear Janmejaya,

As you know that we can not interfere in the selection process done by the company.
Based on my experience,I am saying that some of the companies will select students based on their performance during personal interview while some companies will select the students based on their CPI only,

Best wishes for your future endeavors.

For this round, we divided all the participants into 4 teams: team alpha, team beta, team gamma and team theta. Each team was divided in such a way that there were atleast 1 participant out of each year i.e the teams had atleast one participant

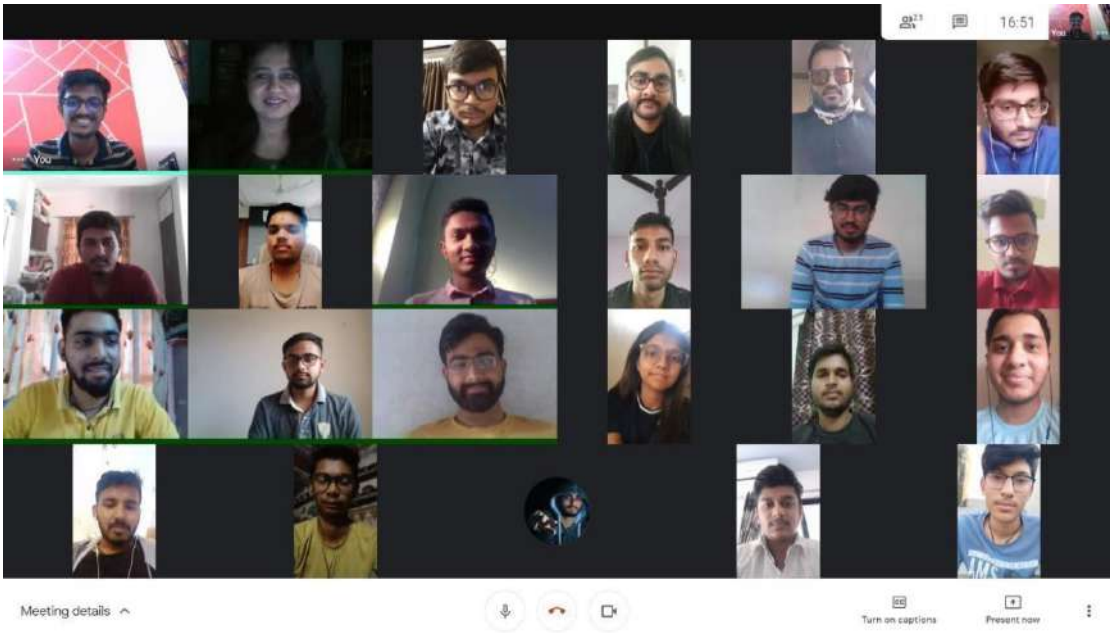

from 1st year, one participant from 2nd year on and one participant from 3rd and 4th year each. 2 teams were then competed against each other in one Google Meet. Team Alpha fought Team Beta, while Team Gamma fought Team Theta.

Round 3 was a group discussion amongst the remaining brilliant minds .The chief guest and judge for the event was Prof. Anjali Thakur. Round 3 was conducted on the same day i.e 17th January 2021 at 4:00 pm IST via Google Meet platform.

SET 3: 10 RIDDLER QUESTIONNAIRE

These event was brought by IICHE DDU-SC to show some unique essence of chemical engineering with some odd methods of question framing. The tricker treat was held on 11/04/2021 on Sunday.

SET 1: 10 PICTORIAL QUESTIONS

In pictorial questionnaire various pics were used as questions to confuse the participants. Few pics were displayed on screen and they have write what it indicated in comment line.

(Currently working as a faculty at Engineering Institute of India)

Mr. Pradeep Kumar Singh has done his Mtech. from IIT - ROORKEE and has a teaching experience of more than 7 year in GATE. First of all he gave a brief idea about GATE exam and its significance. Then he delivered us best tips to score in GATE exam and with its preparation strategies. He cleared many doubts and gave some tips to utilize our vacation in a right manner.

b). **Mr.TANUJ KACHCHHI**

(Currently Working as a Scientific Officer-C in heavy water division under Chemical Engg. Group at BARC)

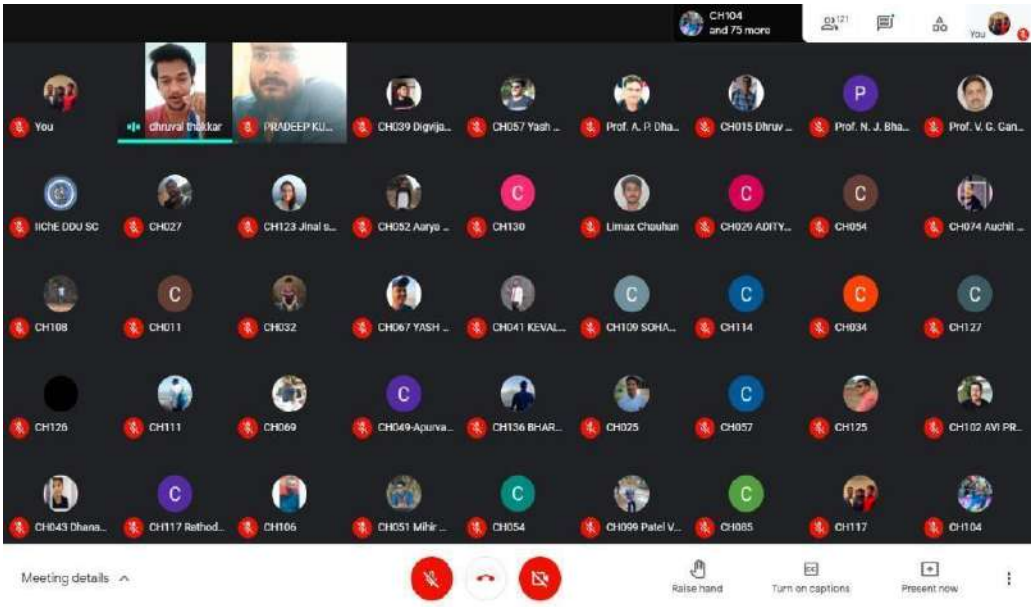

Mr. Tanuj Kachchhi will be sharing his experience regarding his work at BARC and the pre-requisite abilities/knowledge necessary for selection at such institutions. He introduced us with system/pattern of exam and interviews taken for PSU's and BARC further he added up ending with the benefits of working under BARC.

c). **Mr.DHRUVAL THAKKAR**

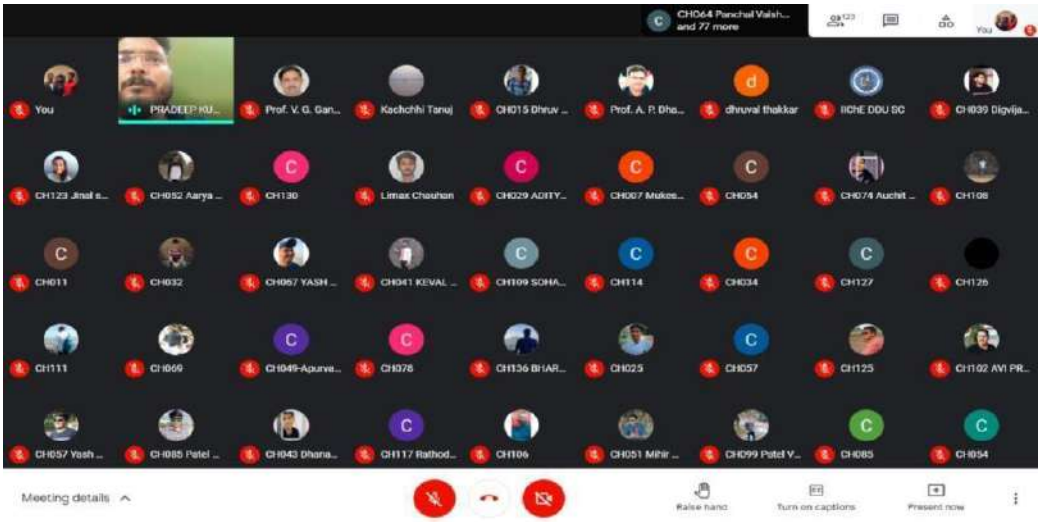

(Former Student at DDU. Holder of AIR 1 at the GATE entrance examination, 2021)

Mr. Dhruval shared his outlook on scoring better at such entrance examinations along with some tips and approaches to do so. He too shared his experience and time table with his strategies to manage burden of both GATE and University.

This session was taken under the guidance of our faculties in their presence on 19th May 2021 from 10:00 am to 12:30 pm.

We had a short lunch break after 1st session then after we continued with the 2nd session which was scheduled from 1:30 pm to 3:00 pm for upcoming 7th Semester students with this year's graduates as Chemical Engineers from Dharmsinh Desai University. They shared their experiences , giving some valuable tips on internship, projects and placements coming in near future. Students who have been placed in some wonderful non-technical field too shared their valuable experience of passing interview and approach to start. The former students cleared all the doubts popping in our mind and showed us the right direction to work on.

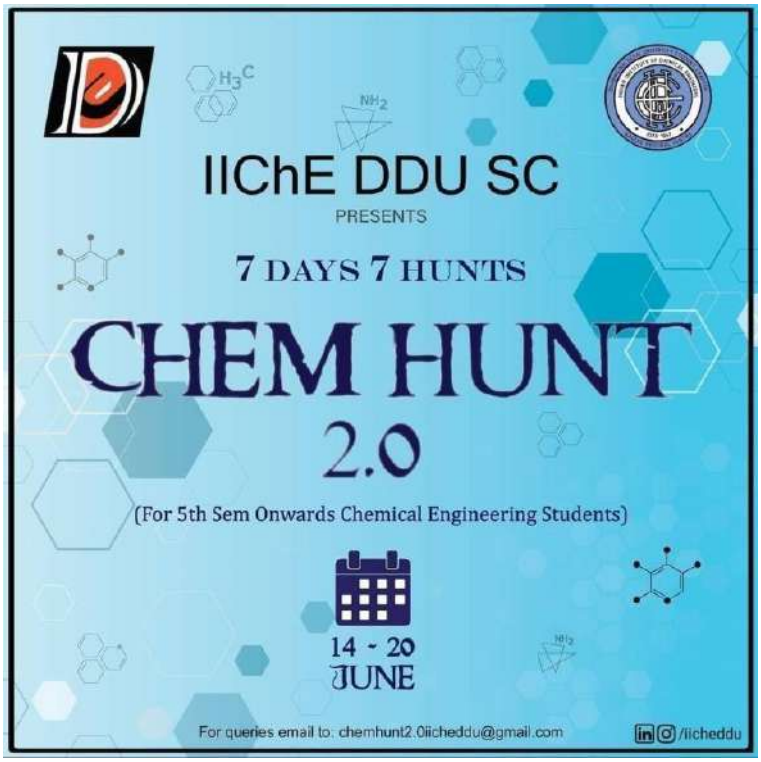

WORKSHOP ON EXCEL AND AUTOCAD

For upcoming final year students IIChE DDU Student Committee's graduated students conducted an online knowledge seminar/workshop on 03/06/21 and 04/06/21 providing them some tricks and hacks for software like AutoCAD and Excel. The aim of the workshop was to highlight the use of these software which are necessary for 7th semester subjects like Material Balance, Energy Balance, Cost Estimation And Design etc. The workshop ended mentioning the importance of these software and its wide use in industries.

CHEM-HUNT 2.0

With CHEM-HUNT being one of the most loved event across the nation by chemicos IIChE DDU-SC decided to kill their boredom and stressful pandemic with a sequel of CHEM-HUNT known as CHEM-HUNT 2.0. CHEMHUNT 2.0 was conducted by IICHE DDU-SC from 14/06/2020 to 20/06/2020. It was an online event carried using platforms like Instagram, Email etc .

The participant were asked to perform a simple task (7 days 7 task) and send the picture of assigned task to their respective coordinators.Only after the task verification by coordinators through instagram direct message(DM), the participants were marked as done or pending on our website by the coordinators and those who haven't completed their given task for the day were eliminated from the event.

http://chemhunt.herokuapp.com/

After getting the password, the participants were able to login into the above mentioned website which consisted of 3 clues indicating a unique unit operation. Each clue carried points as well as the final answer. Those participants who failed to complete or submit the assigned task within the allotted time limit were disqualified from the event .

In this event, we provided some tricky and interesting questions of Organic and Inorganic chemistry and also some questions of General chemical technology.

To participate in our event there was no registration required beforehand and was open for all. The questions were uploaded on our Instagram story; participants have to choose the accurate answer. Daily 4 to 5 questions were posted and the candidate had to choose the correct answer for that particular question. The questions were posted daily at 6 pm.

Dear Sir,

Greetings of the day..!!

Thank you for your response

Here I am mentioning our T & C

1. We have 3 years bond policy
2. As a bond security purpose, we are not taking any money any cheque or any document from the student but we will deduct 15% from the salary every month for 3 years and after completing 3 years we will refund you all the deducted amount
3. Salary is 12k/month(fix for 1 year) So 15% will be deducted in this.
4. The increment is a yearly basis and also based on performance
5. In case of breaking the bond, the deducted amount we will not refund you and additional 2.5 lac have to pay us as a bond penalty fees

Kindly confirm the above policy with your students and send me the final list of the candidates

Expert lecture: Future Guidance

Prepared by: Abhay katrodiya

Date: 25th September, 2018

Venue: SAMINAR HALL,FoT,Dharmsinh Desai University ,Nadiad

Attendance: 74 students of Final year B.tech Chemical engineering, Dharmsinh Desai University, Nadiad.

Guest Lecturer: Mr Nirav Agrawal (Consultant at SI Visa Consulting Pvt. Ltd.)

An expert lecture for the students of chemical engineering was organized by the committee of IICHE under the guidance of Prof. Nirav Bhavsar (Associate Professor at DDU, Nadiad).

To begin the seminar with, Mr Nirav Agrawal introduced himself and shared his experience about how the further studies can be planned in foreign countries and how the foreign admission committee works. The most important thing he mentioned was about "how to write a decent SOP (statement of purpose)". Mr Agrawal made us aware about the mistakes which generally students perform when they are asked to write their SOP. He guided the students with some remarkable tips about writing an SOP, for e.g. what to include in it and what not to. A good SOP contains a clear-cut intension of the student to join the organization, how he/she is favourable for the course/job i.e. mentioning his/her past experiences which makes him/her suitable for that course/job, and also the student should mention his/her ambitions in it. An SOP shall not contain bluff sentences and flowery words. These were the major points which were taught to the students.

To conclude the event we had an interactive session with the experts and students even cleared their doubts regarding foreign study planning. The Seminar was worth conducting as it removed a big question mark from the minds of students about writing a convincing SOP.

Attendance: 200+ students of B.Tech Chemical Engineering, Dharmsinh Desai University, Nadiad.

Guest Lecturers : Prof. V.K Srivastava (President IICHE, principal scientist, BARC, Mumbai), Mr. M.N Vyas (Chief of Operations & HSE, IPCL, Baroda), Mr. Anil Trivedi (Freelance Consultant, DDU ALUMNI) and Mr. S.B Chauhan (Freelance Consultant, DDU ALUMNI).

A series of expert lectures for the students of chemical engineering were organized by the committee of IICHE under the guidance of Dr. M.S Rao, HoD of Chemical Department, Dr. A.P Dhanwani, Head IICHE Nadiad Regional Center and other Faculty members of Chemical Engineering Department.

The phase-1 was started off by Prof. V.K Srivastava who gave us an immensely deep insight about what really it takes to get into BARC and what are the set skills that are required by an engineer to work their. The key point which caught everyone's attention was the fact that how manufacturing of glass can reduce the volume of nuclear waste by 90%! His lecture was concluded by an interactive session of Q&A with the students which resolved any doubts which they had.

Mr. M.N Vyas then gave us an essential insight on the topic Process Safety Management in Petroleum Refining and Pertrochemical Sector, the necessity of interlocks in the reactor along with the roles of PRV and rupture disks. Date: 7-8th March 2018

Venue: MULTIMEDIA HALL, FoT, Dharmsinh Desai University, Nadiad

Attendance: 200+ students of B.Tech Chemical Engineering, Dharmsinh Desai University, Nadiad.

To conclude the event of TECHNOTALK we had Mr. S.B Chauhan who shared his jaw dropping life experiences through which he explained how a safety engineer's thought process should work in the time of crisis for example he shared a situation which took place in an industry in Thailand where the chemical engineer mistook 60 mmHg vacuum reading as the total pressure inside the reactor instead of taking 760mmHg – 60 mmHg as the total pressure which resulted in the choking up of the vessel in almost 2 minutes.

Hello Prof. Khandelwal,

For full-time joinees of M.Tech graduates, it will depend on their technical interview feedback. It can be 2.8 LPA/3 LPA or more based on the same.

For Bachelor students, we can support only full-time job, not the internship. If they join us full-time, their CTC can vary from 1.8 LPA to 3 LPA, again, depending on their technical interview feedback.

I have a Campus scheduled next week on Wednesday 18th April for a M.Tech batch. Thus, if **Thu 19th April 2018** is available, otherwise we will conduct the drive post next week.

Looking forward to your reply!

Thanks,

Vaishali
