Sub: Guidelines for Patent Application

-: Notification:-

Dharmsinh Desai University, Nadiad - 387001, India (hereinafter referred to as "the University"), is actively involved in R&D work of diverse nature. Many of these R&D activities lead to evolution of intellectual property which can be commercially exploited with or without registration under patent/trademark/design/copyright acts. The University therefore encourages the protection and licensing of intellectual property to organizations which can effectively utilize the same for commercial exploitation. This is expected to encourage R&D activities at the University and helps providing practical education along with financial returns.

This document is meant to provide guidance for creators/inventors on the procedure to be followed while filing patents. These guidelines are summarized from the detailed intellectual property policy document of DDU. The guidelines briefly discuss about practices and rules of the DDU regarding intellectual property rights and obligations there under which includes, its ownership, procedure for submission/ registration and commercialization.

All deans are hereby informed to peruse these guidelines and start implementing the same in respective faculties. These guidelines come into force from the date of this notification.

(Dr. H. M. Desai)

Vice Chancellor
